## What can you get?

All selected candidates of China's National Overseas Talents Fund who have passed MIIT's final review are entitled to the following benefits::

- A funding payment at least **2 million RMB (about 280K USD)** for part time. (Some governments may offer extra rewards)
- **Yearly salaries starting from 300K RMB ~ 1 million RMB (no ceiling).**
- The opportunity to apply for research funding of **1 to 5 million RMB (140K~ 700K USD)** for various Research Projects.
- Awarded with the title of “National Distinguished Expert”, which is badge of honor in China.
- Awardees will be strongly supported and prioritized when applying to local and national government-funded programs, in particular NSFC, National Key R&D Programs, Megaprojects, as well as other awards.
- Support for living conditions: support for permanent residence permit and/or multiple entry visas for applicants and their families; Medical care, social insurance; children education allowance; housing and meal allowances, subsidies, and priority in purchasing one residential apartment, etc.

## Eligibility: Who Can Apply?

### No Age limitation.

- Possession of a Ph.D. or MD degree in Engineering or Science or Medical fields.
- Minimum THREE years working experience AFTER obtaining PhD; OR senior technology or management position in a renowned international enterprise or financial institution.

Note: Academic and professional qualifications may be compromised in case of extremely outstanding or special needed talents.

### Key Points:

Timeline for China’s National-level Talent Program Application

1. Resume Submission & Matching (Jan–Apr 2026)

Submit your resume. We will match you with partner institutions through Mingyuan's government-coordinated platform. No direct enterprise contact is needed at this stage; Mingyuan and government partners will share preliminary enterprise details to streamline the process.

## 2. Confirmation & Material Preparation (by 30 Apr 2026)

Upon successful matching, we will provide detailed information on partner enterprises (non- full- time roles) for your review. If you wish to proceed, we will begin preparing and refining your application package (simplified application form + supporting documents).

## 3. Finalization & District-level Submission (by end May 2026)

Mingyuan's national-level team will finalize your materials, which will then be submitted to the district-level talent authority. Materials will be reviewed by academicians from the Chinese Academy of Engineering and national-level experts to strengthen approval prospects. The first- batch application deadline is March 15.

## 4. Provincial & National Review (Aug–Sep 2026)

Materials will be submitted to the provincial talent authority by the end of March 2026, then forwarded to the Ministry of Industry and Information Technology (MIIT) for national-level review during August–September 2026.

## 5. Result Notification (Oct–Nov 2026)

Final results will be released, and Mingyuan will notify you immediately.

## 6. Post-Selection Support (valid for 2 years after selection)

If selected, MIIT will confirm the final partner enterprise and onboarding process. Mingyuan will assist with bonus applications and follow up on disbursement.

Official Email Address for Resume Submission: [china\\_mingtalent@my-innotech.com](mailto:china_mingtalent@my-innotech.com)

WECHAT: 18824581047

At the same time, you can add me as your LinkedIn friend so that we can have in-depth communication. Thank you!

**All the application information and data will be protected under GDPR.**

\*Notes:

·Supporting evidence should be provided in a readable and clear version. The maximum size

of each document should not exceed 1 M to be able to upload onto the application system.

·Please name each supporting documents clearly for us to speed up your application.

·Applicants can submit what they have at hand for now so that we can start the admin work ASAP and applicants can add more documents before the first-round deadline of Mar 2026.

·If you encounter any difficulty collating any documents, it is recommended to send us what you have as an alternative and we will advise if these alternatives can be accepted.

·All the information and documents required would be shown once you start in the system.

In view of the confidentiality requirements and procedural standardization of talent programs, the relevant plans led by the Ministry of Industry and Information Technology (MIIT) are in a highly classified status. In other words, no public disclosure of any related information is legally permitted online. Therefore, we regret that no public links can be shared with you. Nevertheless, the National Natural Science Foundation of China (NSFC) has provided a brief description stating that it has established corresponding project types in accordance with the trends of technological development and national strategic needs. Through continuous optimization and adjustment, a well-structured and fully functional funding system has been formed (see the attached link). The program for which you have received a targeted invitation is a major project initiated by MIIT, aiming to promote China's industrial development and industry-academia transformation. It is open to global scientists and industrial technology experts.

## What we do?

We will review your application form and supporting documents upon receiving your application in the system. We will also verify your background based on the documents you provided.

(Applicants are encouraged to apply ASAP so the process can be started asap).

- We will polish your application form and do all the translation work for your supporting documents for you for FREE. (But we also suggest you prepare a mandarin version CV by yourself to make sure all the professional terms are translated appropriately) We will liaise with relevant universities, companies as well as institutes to start the match making process for you after completing all the admin work mentioned above.
- We will organize online or in person match making events with potential collaborators in China for applicants to discuss the Work Proposal. (It is advised that Applicant fill in as many topics as they can in the application form.)
- We will help find the hosting institutes, prepare application materials, and give trainings regarding interview. Once the Work Proposal is agreed between Applicants and Hosts after several round of online discussion, the finalized application form/proposal will be submitted to the funding panel for review.
